About the Trainer

Trained 35+ Corporates

Participants across 15 Countries

1400+ Hours of Training (over past 12 months)

Ashish Paranjpe, PMP has 31 years experience across industries and domains. Click here to view the trainer profile. Here are 6 reasons why you are in safe hands:

1. Ashish has executed & managed projects since 1991, and also managed project managers. Being hands-on helps him relate better to your projects. Corporate clients include Accenture, Capgemini, IBM, Oracle, HSBC, Barclays, GE, Tata Motors, Godrej & Boyce, L&T Infotech, Petronas, AON Hewitt, CGI, Nissan, Vodafone, SBI Life.

2. In addition to being a trainer for PMP, project management and scheduling tools, he also provides consulting for development of project management software. He can thus connect what PMP says as best practice, to what you would need to do, when implementing it at the workplace

3. Ashish is a freelancer through several training institutes for PMP. He has also reviewed and enhanced course content for them. This exposure has helped him ensure the best PMP Training coverage on the subject

4. As a career coach he can provide valuable guidance, for you to succeed as a manager and to grow in your career.

5. Given his diverse experience, Ashish takes realistic examples from your work settings to make you understand the concepts better. These examples span multiple domains such as Construction, Banking, Insurance, Telecom, Automotive, Oil & Gas, Retail, Software etc.

6. Ashish has authored 5 patents in the field of project management and is providing consultation to leverage these for managing their projects

Approach / Methodology for the training

- Day 1 & 2: The first objective is to establish a strong foundation on project management. You will learn all the key concepts, across the knowledge areas. This includes important documents, theories, best practices and techniques. A case study will be taken up for relating concepts to reality.
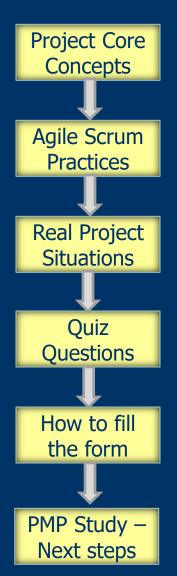

- Day 3 & 4: The focus will be on understanding Agile Project Management with focus on Scrum.

- In addition, the trainer covers the topic of "Professional Responsibility", which you would need to abide by.

- To conclude the trainer guides you on how to prepare for the exam, based on your experience.

- Later, you can take advantage of the power-packed booklet "Cracking the PMP®", which provides you with a huge number of tips and tricks for passing the exam.

Why GetCoached.in PMP?

GetCoached.in's trainer is probably the only one that has been involved in live projects in IT, Engineering, Construction and Consulting areas, along with training. 8 Key Reasons why GetCoached.in is of the best PMP training institutes:

1. Industry experienced trainer discusses examples & situations in your domain

2. Provides recording of the classroom training to help you revise better

3. Comprehensive course - more content than most other institutes. Increases confidence for PMP Exam prep

4. Unique Interactive learning tool and case study approach to understand and remember all PMP processes

5. Pre & Post training support by the same trainer - not by a call centre

6. Successful track record: Less than 1% of participants didn't clear in first attempt

7. Unique Visual Learning Approach that combines Verbal, Logical and Visual Learning for faster grasping & longer retention

8. All this at an affordable fee + EMI option

- **Time:** 9:00 am to 6:00 pm IST with breaks

Assurance – will I pass the PMP Exam?

- **If you don't pass - come back for a free class!** **Cases till date: 0**

- With GetCoached.in's training approach and content, it is very likely that you will be successful in the PMP exam. However, in case you are not able to pass the exam, you can come back and attend the training again, without paying any additional fees.

Here is how it works:

- 1. The offer is applicable for individuals that had attended the 4 day PMP classroom training from GetCoached.in

- 2. The participant will be eligible for the offer if he/she took the PMP exam within 3 months of the training end date, and has a go-ahead from the trainer prior to scheduling the training.

- 3. The participant will need to reuse the training content provided in the first training program.

- 4. The participant will be accommodated in the next available batch.

- 5. The participant will need to provide the results of the PMI PMP exam, so as to guide him/her better.

- 6. The participant will be eligible for this offer only once.

Frequently Asked Questions

- **Q. Do you guarantee that I will pass the PMP?**

- A. Actually, no one can 100% guarantee that you will pass the PMP, but what GetCoached.in does guarantee is that he will cover the entire scope of the PMP course, answer all your queries, ensure that you have understood all the topics. Beyond that, whether you pass or not will depend on your extent of studies, how you use your experience for the answers, your speed of reading, your level of practice, especially for numerical questions, and last but not the least, time management. For more, check the last 2 videos on www.GetCoached.in/pmp

- **Q. What is the eligibility criteria for appearing for PMP?**

- A. The PMI Handbook (see links on getcoached.in/pmp) provides a detailed information on this. In brief, you need 4500 hours (~ 3 years) of project related experience if you have a degree, and 7500 hours (~ 5 years) of project experience if you have a diploma. This experience should be gained in the past 8 years. You need not be in a project management role during all these years but you should have led and directed projects (guided team members, assigned work, tracked and reported progress. If required (~ 10% cases), PMI may need you to get a signature from your manager/sponsor/customer which confirms that you did this project in the stated role.

Frequently Asked Questions

- **Q. What is the option if I do not have these many hours?**
- A. You can appear for CAPM exam, which is based on the same courseware and the training is also the same. Your exam will be simpler and also it will cost you lesser.

- **Q. What book(s) do I need to refer, for studying for the exam?**
- A. You need to read the PMBOK Guide 7th Edition + PMP Process Guide for the preparation of the exam, plus additional books that we will later recommend, if you are not able to get a good score in your mock exams. The book is available for free download for PMI members.

- **Q. What is the fee for the PMP exam?**
- A. For PMP, you need to pay 139$ for PMI one year membership, and later 405$ for the exam fee. In total that comes to 544$. This is slightly cheaper than directly paying for the exam without becoming a member. One of the main advantages of membership is that you get the PMBOK Guide free for download. CAPM costs $300
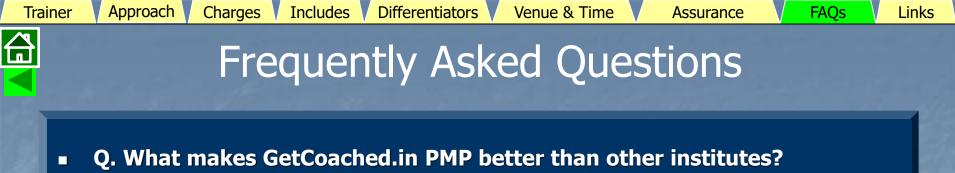

- **Q. How long do I need to study to pass the exam in the first attempt?**
- A. Generally, people take 2 to 3 months to be ready. It depends on the available time, reading speed, grasping power, experience and mock exam scores. If you are able to devote 120-140 hours to prepare for the PMP, that should be good enough.

Frequently Asked Questions

- **Q. When do I know that I am ready to give the exam?**
- A. If you are consistently scoring around 75% in the various mock exams, you can consider yourself to be ready for the PMP exam. However, please note that this is not a guarantee, but a good indicator.

- **Q. What if I do not pass the PMP exam in the first attempt?**
- A. You can give two more attempts in the 1 year time window since you submitted your form and paid the fees. It will cost you 375$ (or $275 for members).

- **Q. What kind of exam is the PMP?**
- A. You need to answer 180 objective questions in slightly under 4 hours. There is no negative marking, and there are situational questions. This will be an online exam at Pearson Vue centers or at home, and hence plan a week or two in advance for the exam.

- **Q. What is the passing score for the exam?**
- A. PMP does not declare any passing score for the exam. You get a proficiency level after completion of the exam, but not a score. However, it is said that generally you need to score 75% in mock exams to be reasonably confident to clear the PMP

Frequently Asked Questions

- **Q. What makes GetCoached.in PMP better than other institutes?**
- A. You interact with the same trainer before and after the training, not a call center support team. The course content more comprehensive, yet the course material is not too heavy to read. The unique interactive excel sheets help you understand the 49 processes better. Last but not the least, all this is available for a competitive fee!

- **Q. Does the institute need to be an R.E.P. (Registered Education Provider)?**
- A. No, it is not necessary that the training should be from an R.E.P. PMI (Project Management Institute) permits you to undertake the 35 contact hours (popularly called as 35 PDUs) training (and certificate) from any organization, as long as the topics covered are aligned with the PMP syllabus. Please contact us on +91-9822603367 if you need more information about this.

- **Q. How long is the 35 Contact Hours Certificate valid?**
- A. There is no expiry date for the 35 contact hours certificate.

- **Q. How long is the PMP Certification valid?**
- A. The certification is valid for 3 years from the day you pass the exam. You need to renew the certification by earning 60 PDUs. Visit pmi.org for more info
